## Our Solutions

### LOWER TAXES FOR CANNABIS TOUCHING ENTITIES

Accrual GAAP Cost Accounting is required to be performed all year (not just year-end at tax prep time) for you to maximize your tax deductions. *If these deductions increase COGS 10-15%, that translates (at 35% tax rates) into about 3-5% MORE CASH in your pocket.*

### MORE MONEY

The goal with every client is to add 3-5% of revenue to the CEO, via many ways; this could be through our strategic tax planning, unique budgeting, lean methods, improved cash forecasting, compliance and so forth.

### PERPETUAL DATA ROOM

All your documents, such as financial, accounting, tax, banking, legal insurance documents, etc. will be on your cloud organized and available all the time and any time! This could add huge value for investors, lenders, state auditors, IRS, and for exits.

### MORE PEACE OF MIND

We will be: reviewing your bookkeeping, fixing errors, building better GAAP financials, handling your tax preparation work, reviewing compliance processes ( IRS, etc.), Internal Controls and more so you can "sleep better at night". Bad Accounting means that you are not in compliance, it means you can be shut down or subject to large penalties and fines.

### CUSTOMER SERVICE

We cater to our clients. We are there to help you. Your success is our success!

### MORE TIME

By taking some of "headache" work off of you, and by eliminating the turnover issue, that frees up much more of your time.

### EXPERTISE

We know accounting & tax, we know finance, we know cannabis, and its operations. We are your go to marijuana CPA firm possessing the necessary expertise and knowledge.
